[Back pain focus of conference](#)

Pacific Daily News

A conference today on back pain will feature Dr. Stephen Eagles as the speaker.

A board-certified radiologist, Eagles obtained his medical degree from Georgetown University's School of Medicine and completed his radiology residency at University of Minnesota. Eagles also had additional MRI fellowship training at Johns Hopkins University.

Today's conference will be from 5 to 6:30 p.m. at the TakeCare Conference Room in the Baltej Pavilion in Tamuning.

TakeCare Insurance Company Inc. and the MR Imaging Group are hosting the conference, titled "Back Pain: The Imaging Appearance and Treatment Implications of Common Conditions."

'A common problem'

The conference will be useful to physicians, nurses and allied health professionals in the community, according to the event's hosts.

"Back pain can be a common problem in today's fast-paced life. Learning about the diagnosis and treatment can lead to early and effective medical management of the condition," said Gerry Patricio, radiologist at the FHP Health Center.
