

## **CT scans now available at FHP**

FHP Health Center is now offering CT scan options for patients. According to a company release, effective this Monday the center will offer the general electric CT scan machine that allows for visualization of the internal organs and soft tissue structures of the body.

FHP Health Center is now offering CT scan options for patients. According to a company release, effective this Monday the center will offer the general electric CT scan machine that allows for visualization of the internal organs and soft tissue structures of the body.

CT scans show the extent of damage caused by a head injury, stroke, abdominal aneurysms, masses and tumors.
