

# FHP IMAGING CENTER

## Comprehensive Diagnostic Medical Imaging

Our FHP Imaging Center offers Comprehensive Diagnostic Imaging. Our highly specialized, board-certified radiologist and state-of-the-art diagnostic technology ensure high quality, patient-focused care. Convenient Radiology Information System (RIS) which allows all network providers real-time access to images and reports.

- Full Digital X-Ray **NEW**
- MRI (3Tesla-Higher Resolution)
- CT Scan
- Full-Field Digital Mammogram
- Ultrasound (with 4D Technology)
- Bone Mineral Density/Dexa Scan
- Echocardiogram
- Interventional exams such as ultrasound guided biopsy and aspirations

We accept most insurances including StayWell, NetCare, Aetna, Tricare, and self-pay patients are welcomed. Now accepting new patients.

Call the FHP Health Center at **(671) 646-5825** and **Press 1** to schedule an appointment today.

*Our Island, Your Clinic<sup>SM</sup>*

## Convenience and Access Information Technology

Access to study results is what referring physicians want. Through the web portal the referring can see the status of any study that has been ordered, down to the detail of studies that are actually in progress. When the study is complete, the study images and study report can both be viewed.

- **Web-Portal** – allows provider convenient real-time access to images and reports
- **Efficient Automatic Fax Reporting System**
- **Fully integrated Picture Archive and Communication System/Radiology Information System** – Electronic Medical Records
